

MID MAINE SUSTAINABILITY COALITION

Meeting Notes for Team 4: Rethink, Reduce, Reuse and Recycle

June 4, 2009

Attendees: Greg Brown, Bob Gilchrist, Tom Longstaff, Shelly Phillips, Mike Donihue, Elery Keene, Steve Erario and Sally Harwood

We met in the Council Chambers from 5:15-6:30, beginning with introductions and a brief overview of the Energy Sustainability Catalyst in January, 2009. Elery reviewed the goals and projects that were developed for Team 4 during the Catalyst and all added their thoughts about projects of interest and areas of expertise.

The main goal of this meeting was to see if there were volunteers interested in reviving Team 4 to accomplish already developed projects and to develop others. All contributed ideas and information and agreed that this is an important Team to be up and running.

We agreed to meet again Thursday, June 18 from 5:15-6:30, bringing the ideas voiced during the meeting and/or other ideas that are applicable to this Team for further discussion. Each was asked to consider who else might have interest and/or expertise to assist with Team 4 projects.

In the next meeting, we will discuss ideas for projects, further develop projects created during the Catalyst and work towards prioritizing the projects. And we will collect any names of those who might be interested in joining Team 4.

Many thanks to all who participated in this meeting and revived Team 4 with exciting ideas, enthusiasm and expertise.

Sally Harwood
