

FOR IMMEDIATE RELEASE

CITY OF WATERVILLE

APRIL 9, 2018

STATEMENT FROM WATERVILLE MAYOR NICK ISGRO REGARDING RECALL PETITION

“I have always been a tireless advocate for you – the people of Waterville – and our record of success speaks for itself. The well-connected and wealthy political elites have a very different agenda for our city and they seek to roll-back our accomplishments we achieved together.

“This effort they have started with their friends in the media and dark money funded outsiders who do not live in our city is not simply an attack on me, it is an attack on all of us. Since I work for you, the people of Waterville, I want you to know that I will continue to work with you and be a tireless advocate for your families, friends and neighbors.

“Thank you for having my back with your overwhelming messages of support. I will continue to have yours.”
